

# 1CEMMR

## 1 Channel External Multitek Mains Receivers (with antenna)

Now you can turn on the outside lights, the sprinkler system, the pool pump...well you can turn on literally anything by pressing your remote control from a distance! The Mains Receiver works in the same way as a standard receiver, with the added feature of a single high current relay output for a direct connect to any device that operates on 220V AC. Encased in a durable, waterproof casing with a long range receiving antenna, this is a real convenient prize winner!

### Features:

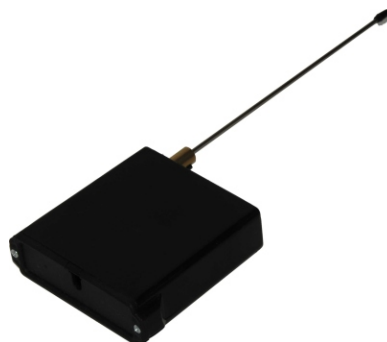

Relay can be selected between pulse and latch

Relay rated at 12 amp, 220 volt output relay

Built in field strength LED to assist with installation

Unique advanced interference reduction circuit

Incorporates Multitek Smart Memory
